

Performance Drug List - Standard Control for Clients with Advanced Control Specialty Formulary® - Chart for MHBP

This is a listing of prescription medications within select therapeutic categories for your MHBP health plan. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medications are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list and does not guarantee coverage. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

PLAN MEMBER

MHBP provides you with prescription drug coverage that is administered by CVS Caremark. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list the next time you or a covered family member sees a doctor.

- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document. Medications and products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered immediately upon release to the market.
- For specific information regarding your prescription benefit coverage and cost sharing, or if you have additional questions, please sign in or register on [Caremark.com](https://www.caremark.com) and click Plan Summary on the Plan & Benefits menu, visit www.mhbp.com or contact a CVS Caremark Customer Care representative at 1-866-623-1441.
- FDA-approved drugs are included; however, this list is not meant to be a complete list of drugs covered under your plan. Although this drug guide was current at the time of printing, it is subject to change. Additionally, certain drugs on this list may be moved from one category to another. Please call **1-866-623-1441** with any questions about your prescription benefit plan.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.
- Some drugs may have restrictions on them including, but not limited to, quantity limits, dosage limits and prior authorization. Please check with your plan. This list is not a complete list of restrictions and is subject to change by your plan.

- Before making a final decision, please read the official Plan brochure(s) of the Mail Handlers Benefit Plan (MHBP) RI 71-007 or RI 71-016. All benefits are subject to definitions, limitations and exclusions set forth in the official Plan brochure(s).

HEALTH CARE PROVIDER

Your patient is covered under MHBP, which is administered by CVS Caremark. As a way to help manage health care costs, please authorize generic substitution whenever possible. If you believe a brand-name product is medically necessary, consider prescribing a brand name shown on this list.

- The member's prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered immediately upon release to the market.
- The member's prescription benefit plan may have different cost sharing for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to Caremark.com or visit www.mhbp.com to check coverage and cost sharing information for a specific medicine.

FOR YOUR INFORMATION: New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

An exception process may exist for specific clinical or regulatory circumstances that may require coverage of an excluded medication.

Formulary removals/drugs not included on the preferred options list may be covered by the plan when preferred options are not clinically appropriate. For more information, please sign in or register on Caremark.com and click Plan Summary on the Plan & Benefits menu.

Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

Some listings do not include certain NDCs as noted above.

An ACCU-CHEK or ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUCH. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

BD ULTRAFINE syringes and needles are the only preferred options.

ACCU-CHEK or ONETOUCH brand test strips are the only preferred options.

Generic prenatal vitamins and CITRANATAL are the only preferred options.

Fluticasone HFA is covered for members 6 years of age and under.
